OFFERING QUALITY VOCATIONAL TRAINING SINCE 1970

FINANCIAL NEED CALCULATION

Policy and Procedure

Procedure

Upon awarding federal student aid, CCS will consider and apply all “estimated financial assistance” received by the student. These amounts will be recorded on each student’s award letter. In the event that the student’s financial assistance information changes, CCS will issue a new award letter including said changes.

Policy

“Estimated Financial Assistance” includes, but is not limited to: Federal Supplemental Educational Opportunity Grant (FSEOG), Federal Pell Grant, Federal Work Study, State Agency Grants, Scholarships, Veterans’ educational benefits under Chapter 30, 31, 32, and 35 and title 38 of the United States Code. It may also include national service education awards or post-service benefits paid for the cost of attendance under Title I of the National and Community Service Act of 1990 (AmeriCorp) Private Insurance programs and the Department of Vocational Rehabilitation funding for the student’s education.
