Responsibilities

All financial aid recipients agree to attend and complete the training program that they are enrolled in, to report withdrawal from CCS, and to notify the Financial Aid office of any changes in their financial or marital status. Students who accept financial aid agree to report to the Financial Aid office any additional resources received including, but not limited to, scholarships and grants from outside sources.

Recipients of financial aid must use the funds to meet education costs only. Any other use of the funds is prohibited by law.

Students who are receiving financial aid must maintain satisfactory academic progress. See the section below for details.

Satisfactory Academic Progress Standards

All students, including financial aid recipients, must maintain scholastic academic progress as outlined in the California Career School catalog and Financial Aid policies and procedures.

Federal and state regulations governing student financial aid programs require California Career School to ensure that each student who is receiving financial aid maintains satisfactory academic progress (SAP) toward a certificate objective. These regulations allow the institution to set the standards of SAP as long as “those standards are reasonable, are applied consistently and are at least as strict as the requirements for all students, and measure progress toward the certificate for all periods of enrollment regardless of whether the student is receiving financial aid.” As required, a quantitative and qualitative measurement has been defined in the Satisfactory Academic Progress Policies and Procedures.
